

run cases your way. built on your reality.

Enterprise-ready case management

Trusted by enterprise legal teams handling millions of cases daily,
Neostella adapts to your firm, your stack, and your scale.

the old way.

Disconnected systems. Rigid workflows. Automation and AI that misses the mark. Teams burning out. Leadership guessing.

the Neostella way.

One connected ecosystem. Automated workflows built for your firm. Integrated data. Teams focused. Leadership fully informed.

This is your platform, your way:

Case Management	Finance
Communications	Integrations
No-Code Automations	Analytics & Reporting
Document Management	Document Generation
Intake & CRM	AI-Powered Search
Time & Billing	

built around your reality,
not rigid software.

Your fields. Your objects. Your logic.

Neostella's flexible data model adapts to how your firm works; no templates, no workarounds.

every tool, all your data,
connected in one place.

Integrate or consolidate, you choose.

Run everything on Neostella, or just the pieces you need.

Connect your favorite tools with open API for seamless data flow and a truly unified tech stack.

workflows that fuel team
momentum, **not slow it down.**

From mapped process to automated action.

Visually design your workflows, then automate them so tasks reach the right people, at the right time, every time.

enterprise strength.
everyday simplicity.

Granular control meets effortless usability.

Field-level permissions, audit-ready controls, and admin flexibility, paired with a clean, modern interface everyone can use.
